

What is the Practitioner Mentoring Course?

The Practitioner Mentoring Course is a three-day course that provides you with personalized instruction in multiple areas designed to develop your skills to assist in seminars as a TA, mentor individuals and small groups of new practitioners in the practical aspects of Reconnective Healing® and the Reconnection®. Graduates of the program are also able to hold their own small refresher classes and give business development talks to pre-approved audiences.

Course Description

Topics covered in this course include: Healing, Philosophy, Mechanics, Teaching Assistant responsibilities, criteria for choosing assistants for seminars, coaching standards and fee structures, correct coaching techniques, a review of Keys 3.1.4 and 3.1.7 from The Book of Knowledge: The Keys of Enoch, guidelines for refresher classes, and guidelines for approved business development talks of varying lengths. A passing evaluation will confer advanced practitioner status and qualify you as a TA and Coach/Mentor for a period of 12 months.

The primary emphasis of Practitioner Mentor Course is to coach you to higher levels of performance and ease with the work. As part of that process, on Day 3 of the course, evaluations will be conducted to allow us the chance to provide you with an individualized learning and growth plan.

At the conclusion of Day 3, each attendee will receive a preliminary evaluation with feedback and suggestions for improvement in areas, which may require additional focus. Final evaluations will be shared approximately 4-6 weeks after completion of the course. Practitioner Mentor status will be conferred only when all areas of performance meet

course standards and after attendees have demonstrated their proficiency as a TA at our seminars.

Practitioner Mentoring status is valid for 12 months. All Practitioner Mentors are also considered Certified Practitioners. After the 12-month period has lapsed, you may renew your status either by retaking the Practitioner Mentor Course, being a co-sponsor for one of our seminars, or creating and hosting a Breakout Session at one of our Mastery Conferences.

A pre-course packet will be sent to each attendee that will contain material the attendee is expected to review and learn **prior to attending** the course.
